Product Details

- Two Independently Adjustable Axes
- Any Rectangular Slit Size up to 10 x 10mm
- 50mm Outer Diameter for Ease of System Integration

Two-Axis Adjustable Slits feature two independently adjustable mechanical levers for use in multi-axis beam shaping applications. The slits open evenly from fully closed to a 10 x 10mm square. Featuring a 50mm outer diameter, 10mm thickness, and two M2 mounting holes on its face, the Two-Axis Adjustable Slit can be easily integrated into benchtop optical applications. These slits are ideal for applications including light spectrophotometer image analysis, lensless imaging and multi axis beam shaping.
