General

378-514 **Model Number:**

UV-VIS-NIR **Range:**

Vertical Mount, Brightfield, Erect Image **Type:**

Manufacturer:

Compatible Objectives:

MPlan Apo/HR/SL, MPlan NIR/NUV, and MPlan UV

Note:

Note: Magnification: 1X Tube Lens
Optional C-Mount adapter #37-044 available for dual-camera system

Physical & Mechanical Properties

Weight (g):

1300.00

Optical Properties

Design Wavelength DWL (nm):

226, 355, 532, 1064

Magnification:

1X

Sensor

Maximum Sensor Format:

2/3"

Threading & Mounting

Mount:

C-Mount

Mounting Threads:

Objective Mounts: M26 x 36 TPI

Regulatory Compliance

Certificate of Conformance:[View](#)**REACH 241:**[Contains SVHC\(s\)](#)

Product Details

- Designed for use with [Mitutoyo NIR, NUV, and UV Infinity Corrected Objectives](#)
- Maximum Sensor Size up to 2/3"
- Ideal for Laser Processing and Machining applications

Mitutoyo Nd:YAG Laser Line Video Microscope Units (VMU) allow for quick and easy setup of laser processing systems by connecting an infinity corrected objective to a c-mount camera. Optimized for Nd:YAG laser lines of 266, 355, 532, and 1064nm, these VMUs are designed for use with [Mitutoyo UV, NUV, and NIR infinity corrected objectives](#). These VMUs can also be used as infrared inspection systems when using an infrared light source and an infrared camera. Mitutoyo Nd:YAG Laser Line Video Microscope Units (VMU) are ideal for laser processing and imaging applications such as cutting, trimming, and repair of IC wiring, thin-film processing, and infrared spectral characteristic analysis. A dual-camera laser line VMU option is also available for high and low magnification observation.
