Product Details

- Adjustable Height Bar Clamp Included with [#03-665](#)
- Ideal for Mounting Laser Tubes and Large Optical Elements
- 1/4-20 Tap Hole Allows Mounting to 0.50" Diameter Post

Our V-Block base is ideal for mounting laser tubes and optical elements thick enough to stand vertically on edge (such as most achromats). The six 1/4-20 tap holes around the base are designed to accept clamp posts, but may also be used to mount the V-Block. A 1/4-20 tap hole in the center of the base allows mounting to any 0.50" diameter post. Adjustable height bar-type clamp secures components in the V-Block.
